

Limonana (Mint Lemonade)

Ingredients

2 cups freshly squeezed lemon juice
2 cups simple syrup
4 cups cold water
4 bunches mint, picked and washed

Procedure

1. Mix lemon juice, simple syrup and water together in a pitcher
2. Blend mint leaves into lemonade and let sit for 1 hour
3. Pass lemonade through a fine mesh strainer to remove any pulp from the lemon or mint
4. Serve over ice

Yield: 2 quarts

Notes:

To make the simple syrup, mix 1 1/3 cups sugar with 1 1/3 cups water and heat in a pot over a medium flame. Once the simple syrup comes to a boil, turn off the heat and allow the syrup to cool before using.
